

GATHER

shaw contract

A RICH VISION OF THE WAYS WE CONNECT AND FLOURISH.

In Gather, past, present and future merge tradition with mindful modernity. Gather draws from a wealth of cultural and design influences to create inviting, sophisticated spaces that promote connection and community. The collection styles are grounded in the familiar, but use color, pattern and texture to enhance the promise of the new by combining aesthetics and practicality in elegant, natural ways.

BATIK (60785) IN TIMELESS (85402)

THE WAYS WE COME TOGETHER CHANGE THROUGHOUT OUR LIVES.

Bridging past and future generations, Gather lays the foundation for inviting and elegant spaces tailored to residents and their families who view community living as a considered lifestyle choice. Gather embraces the future with all the richness of our past experiences as we join together in a new approach to senior living.

INSPIRED BY ARTISANAL METHODS

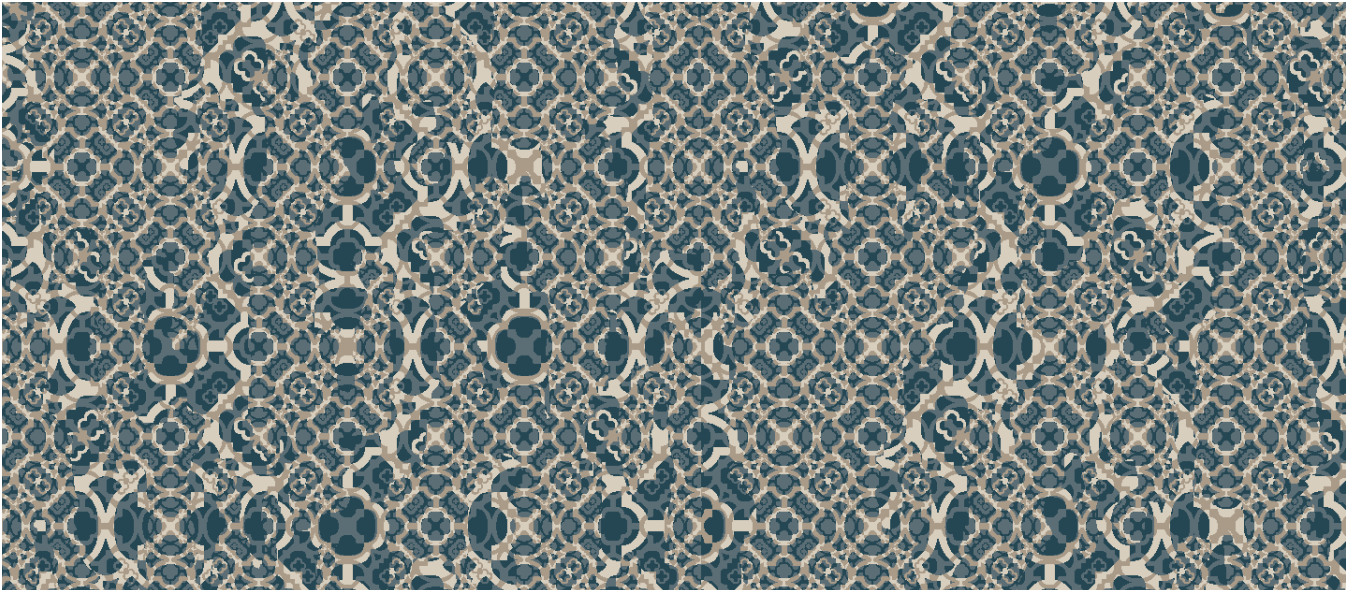

The patterns in Gather are rooted in traditional techniques and heirloom textiles adapted from cultures around the globe, and re-imagined for contemporary spaces. Four distinctive broadloom patterns work collaboratively to offer a range of motifs, textures, scales and tones that add vitality, depth and sensory comfort to a variety of spaces from corridors to dining, entrance and living areas.

MACHINE-TUFTED BROADLOOM

Patterns create precise details for a dimensional aesthetic in multi-level cut and loop construction. Gather's custom broadloom options extend the collection's versatility in senior living environments and are particularly suited for community public spaces. All styles in Gather can be customized in scale, construction and more than 280 solution-dyed nylon colors. Minimums apply for all customization. Contact your account manager to learn more.

TAILORED SPACES

Broadloom and tile custom patterns are found in the collection's existing curated color palettes in Shaw's Foundry Custom Design Tool. Tailored for designers, Foundry offers a virtual workspace where users can recolor products in rendered environments and order physical samples of their created patterns, streamlining the design-to-implementation process. Experiment with Foundry at: **foundry.shawhospitality.com**
